

REACHing Compliance –
How to successfully
implement the new Basic
Law for Chemical
Substances

Things are never what they are. They are always what you make out of them.

Jean Anouilh (1910-1987),
french dramatist

Our multidisciplinary competencies for your successful implementation of REACH

Deloitte

Deloitte & Touche offers multidisciplinary consulting services such as IT management, system implementation and due diligence in the environmental field. Our services are mainly focused on clients in the chemical, power supply, manufacturing and logistics industries. Deloitte experts have profound knowledge of and experience with greenhouse gas projects, sustainability, risk and compliance initiatives and chemicals legislation.

Raupach

Raupach & Wollert-Elmendorff is a full-service law firm with a wide range of national and international clients and serves as legal cooperation partner of Deloitte in Germany. Raupach's multidisciplinary REACHteam offers legal advice in all relevant fields, in particular Food Law, Life Sciences, Pharmaceutical Law and Chemical Law, Public Law, Corporate and Contract Law, data protection, IP Law as well as Corporate Governance and Compliance.

REACH

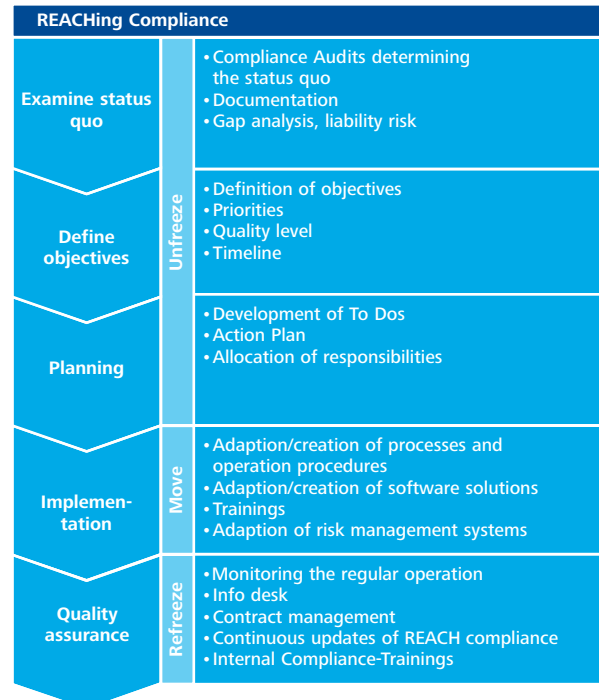

Since 2007 the REACH Regulation has been reshuffling the regulatory environment for chemicals. The new rules are complex and simultaneously have an influence on many internal processes of your business. The pre-registration phase has already proven to be a major resource-consuming challenge for many companies. Have you implemented all the relevant REACH rules comprehensively and systematically? Do you know how to continuously monitor your compliance with REACH?

Your current situation	
1	REACH enacts complicated and far-reaching rules for your enterprise
2	REACH affects many processes throughout the whole organisation
3	Your internal REACH experts are occupied to full capacity with registrations
4	Your internal QM and IT personnel lacks sufficient deep REACH knowledge
5	You are facing frequent inspections by local authorities (REACH-en-force-1-Program)

Your objectives	
1	Being in compliance – pass authorities' inspections
2	Fulfilling increased standards for product safety and liability
3	Satisfying disclosure and information duties for "substances of very high concern" in articles
4	Avoiding liability – of enterprise, management and supervisory board
5	Embedding requirements legally compliant into QM operation procedures and IT solutions
6	Protecting your brand and image

REACHing Compliance – Our All-in-one approach:

- Comprehensive multidisciplinary consulting services evaluating your present status and implementing the relevant REACH rules into your business
- Expert Audits of REACH, management systems, IT and legal
- Meeting REACH requirements: gap analysis
- Report on the current situation pointing out potential risks and gaps
- Recommending actions and To Dos
